First Norris Peters printing

Back with purple circular Tesorería seal and horizontal [Type 3b](#) control letters on the back

The easy to sew new G-XXIXXII foot note is an error for B-XXCIII but harder to explain the two 'D's'.
Second Norris Peters printing

30,000 notes printed by Norris Peters under the 8 October contract and dispatched on 23 October 1914^{footnote}LG papers, 2-F-36, letter from S. C. de la Garza, Washington, to L. de la Garza, El Paso. 23 October 1914: 6-C-28, letter Navarro, Washington to Luis Gaxiola, El Paso. 9 December 1914^{footnote}. [M-DCL](#) [N-CLM](#) [O-MXI](#) [P-IXM](#) [R-XXM](#)

[N-CSM](#) is also known and is possibly an error for N-CLM.

The February 1916 report to the Carrancista government, which only listed the Maverick-Clarke issues, states that the Villistas began to overstamp the \$50 notes on 9 June 1914 and finished on 17 February 1915^{footnote}AGN, Fondo Gobernación Periodo Revolucionario, caja 61, exp 24^{/footnote}.
